

LYTH / NMC battery integration module

LYTH 2P3S 117Ah VDA355 NMC Module

Battery module for engineered EV or industrial pack integration. Requires compatible BMS, electrical protection, enclosure and charging/system design; it is not a complete household storage system.

Module nominal energy	Approx. 2.63 kWh
Module nominal capacity	234 Ah
Module nominal voltage	11.25 V
Configuration	2P3S
Chemistry	NMC (also called NCM)
Module voltage range	8.4-13.2 V standard
Cell / module identification	SVOLT CE1L4L36B, 117 Ah per cell

Product title uses single-cell Ah. Module capacity and energy shown here are the manufacturer-published derived module parameters, not final pack ratings.

Reference and supply scope

These are manufacturer model-reference values, not a Gateway stock confirmation or a complete site design. Confirm the offered configuration, accessories, compatibility, availability, warranty and installation scope in the quotation.
