

PERKINS / Diesel generator engine

404D-22G

Compact four-cylinder, naturally aspirated ElectropaK engine for 50 Hz generator integration.

Typical electrical prime output	20.3 kVA / 16.2 kWe
Typical electrical standby output	22.1 kVA / 17.7 kWe
Frequency	50 Hz
Engine speed	1500 rpm
Gross mechanical prime power	18.7 kWm
Gross mechanical standby power	20.6 kWm
Displacement	2.216 L
Cylinders	4 in-line

Perkins engine / ElectropaK, not a complete generator set. Electrical values are manufacturer typical generator output, not a guaranteed assembled genset rating. Final output depends on alternator and integration. Image represents the manufacturer engine family and may vary from selected configuration.

Reference and supply scope

These are manufacturer model-reference values, not a Gateway stock confirmation or a complete site design. Confirm the offered configuration, accessories, compatibility, availability, warranty and installation scope in the quotation.
